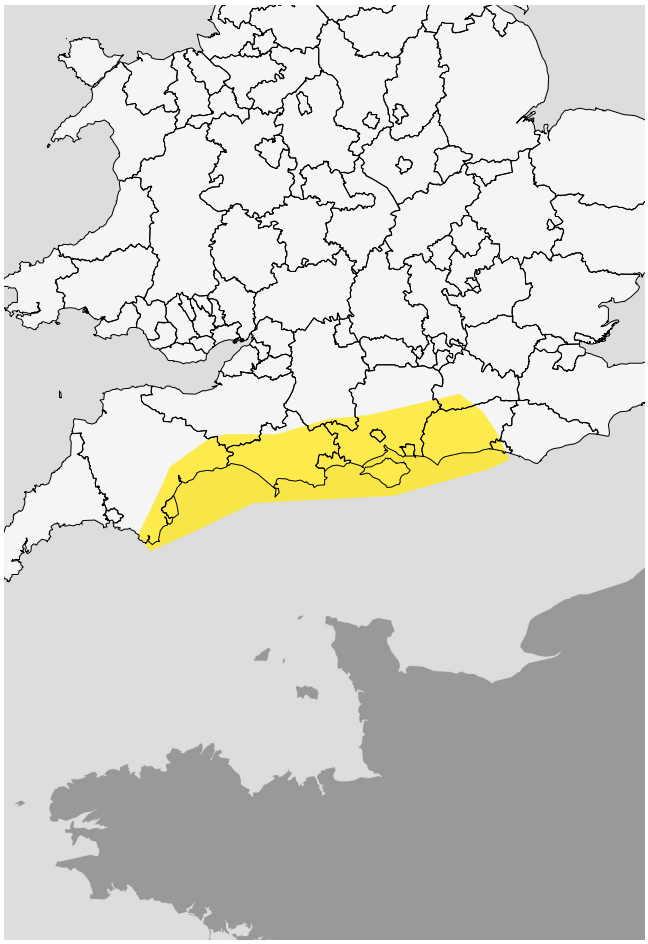
Yellow warning
Rain

Between
12:00 Mon 28 Jun 2021 and
03:00 Tue 29 Jun 2021



Following thunderstorms in places today, another band of heavy rain may bring further flooding impacts during the night.

What to expect

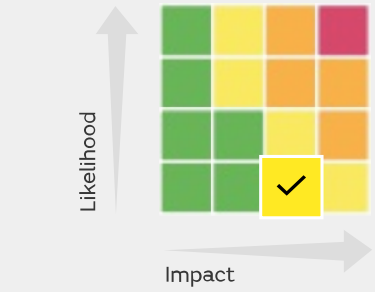
- Spray and flooding could lead to difficult driving conditions and some road closures
- Where flooding occurs, there is a chance of delays or cancellations to train and bus services
- There is a chance that homes and businesses could be flooded, causing damage to some buildings

Further details

A further band of heavy rain is likely to swing into some southern counties tonight. While the south coastal fringes, perhaps particularly parts of Hampshire and Dorset, are most likely to see the heaviest rain this time, some places further inland saw torrential rain on Monday afternoon and evening, and so smaller amounts of rain here may still prove impactful.

Reason for update

Warning extended to cater for further possible heavy rain overnight.



Very low likelihood of medium impacts
